

Incident Investigation Report (Part 2)

| Part Of Body     | Nature Of Injury         | Injury Source            | Accident Types             |
|------------------|--------------------------|--------------------------|----------------------------|
| Abdomen          | Amputation               | Air Pressure             | Cardiovascular Incident    |
| Ankle            | Asphyxia                 | Animal/Insects           | Carpal Tunnel Syndrome     |
| Arm - Upper      |                          | Asphalt                  |                            |
|                  |                          | Brick, rock, stone       |                            |
| Arm - Lower      | Burn/Chemical            | Conveyor                 | Caught In/Under/Between    |
| Back             | Burn/Heat                | Electrical apparatus     | Chemical Poisoning         |
| Brain            | Concussion               | Hand Tool Not Power      | Dermatitis                 |
| Chest            | Disease                  | Hand Tool/Power          | Electrical Contact         |
| Digestive        | Contusion, Bruise        | Health Hazard            | Falls From Elevation       |
| Ear              | Crushing                 | Radiation                | Falls On Same Level        |
| Elbow            | Cut/Puncture             | Fumes                    | Fatality                   |
| Eye              | Dermatitis               | Gas                      | Hand Tools                 |
| Face             | Dislocation              | Dust                     | Hearing Loss               |
| Finger/Thumb     | Electrical Shock         | Heat                     | Highway Vehicles           |
| Foot             | Fracture                 | Hoists                   | Injured - Animal Or Insect |
| Genital Area     | Freezing/Frostbite       | Ladders/Climbing         | Injured Lifting, Lowering  |
| Hand             | Hearing Loss             | Machines                 | Injury - Burns             |
| Head             | Heat Exhaustion          | Metal, Molten            | Injury - Cuts              |
| Heart            | Heat Stroke              | Minerals, Metallic       | Injury - Eye               |
| Hips             | Hernia                   | Noise                    | Lift/Lower-Manual Han.     |
| Internal Organ   | Inflammation             | Open Trench./Hole        | Machine Injuries           |
| Knee             | Multiple Injuries        | Poisonous Vegetation     | Material Handling – Man.   |
| Lower Leg        | Occupational Disease     | Power Transmission Equip | Material Handling – Mech.  |
| Lungs            | Pneumoconiosis           | Protruding Object        | Mental Disorder            |
| Multiple         | Poisoning                | Silica                   | Miscellaneous-NOC          |
| MSD (Musc. Skel) | Radiation                | Scrap Debris             | Multiple Complaints        |
| Neck             | Scratch                  | Steam                    | Not Found                  |
| Nervous System   | Severe Allergic Reaction | Vehicles                 | Occup. Disease - NOC       |
| Scalp            | Sprain/Strain            | Welding/Cutting          | Portable Power Tools       |
| Shoulder         |                          | Walking/Working Surfaces | Repetitive Motion          |
| Skull            |                          |                          | Resp. Disorders - NOC      |
| Thigh            |                          |                          | Slip Or Trip (Not Fall)    |
| Toe              |                          |                          | Struck By/Against Objects  |
| Wrist            |                          |                          | Struck By/Against - Person |
|                  |                          |                          | Undefined                  |

| UNSAFE CONDITIONS                                | UNSAFE ACTS                                   |
|--|---|
| Poor housekeeping                                | Working on moving or energized equipment      |
| Poor ventilation                                 | Unauthorized operation                        |
| Poor lighting                                    | Horseplay                                     |
| Temperature hot/cold                             | Ignored safety rule                           |
| Unguarded machine                                | Improper lifting                              |
| Inadequate guarding                              | Alcohol/drug/abuse                            |
| Flammables                                       | Failure to use PPE                            |
| Exit blocked/locked                              | Failure to secure against unexpected movement |
| Wet/slippery floor/step                          | Failure to warn of hazard                     |
| Electrical defects                               | Improper use of equipment or tools            |
| Hazardous Environment                            | Improper use of hands or body parts           |
| Inadequate fire protection                       | Inattention to footing or surrounding         |
| Lack of appropriate clothing (PPE)               | Making safety devices inoperative             |
| Lack of job procedure                            | Moving at unsafe speed                        |
| Chemicals  | Taking unsafe position or posture             |
| Noise  | Using unsafe/defective equipment              |
| Biological materials                             | Failure to use appropriate equipment          |
| Improperly piled or Improperly stacked materials |   |
| Lack of hazard warning                           |   |
